RESEARCH INTERESTS

AI-augmented qualitative research methods, computational text analysis, political economy of technology, and consumer behavior in digitally mediated markets.

EDUCATION

2026 – 2028 (expected)	MA in Public Policy with Certificate in Research Methods (MACRM) University of Chicago, Harris School of Public Policy Harris Merit Scholarship (\$25,000)
2023 – 2026	BSc Philosophy, Politics and Economics University College London, Department of Political Science
2020 – 2023	High School Diploma Experimental High School Attached to Beijing Normal University

EXPERIENCE

2024 – Present	Co-Founder, <i>Qualitati</i> AI-powered user research platform for qualitative research at scale. Built AI-moderated interviews, focus groups, and conversational surveys, plus an automated thematic-analysis pipeline. Led full-stack development from architecture to deployment, alongside product design and pricing.
2024 – Present	Research Assistant, BI Norwegian Business School & HEC Paris Supervisor: Dr. Shubin Yu Project: Generative AI for Research Initiative (Project Website) Conducted interviews, designed questionnaires, co-developed <i>mimitalk.app</i> (an AI-powered interview platform), drafted papers.
2025 – Present	Research Assistant, University College London Supervisor: Dr. Handi Li Project: Quantitative Analysis of Political Discourse on Social Media
2024 – 2026	Research Assistant, Anhui University Supervisor: Dr. Shun Wang Data collection and processing, literature review and synthesis.
